

Local, ethical & with a heart for our community

Our vision has always been to open up our space further to the community, which will allow us to connect in deeper, more meaningful ways locally, particularly in these days beyond the restrictions of Covid, where some are still feeling isolated and need community, or are finding the confidence to start mixing again.

We are committed to an ethical ethos. Our coffee is supplied by a company called 'CLO' who care for the entire supply chain. Our chosen coffee uses a blend of beans which is grown and roasted in Rwanda entirely by women. We are trying to reduce our carbon footprint by sourcing items locally and in the second half of this year we will be installing solar panels. We are also growing some of our own food to include in meals.

All of the tables in the coffee shop have been made from our old church pews, handcrafted and repurposed by a talented member of the church.

We will also be offering a listening ear to anyone who might be struggling, for any reason. We really hope to help to be a part of enhancing community in Finham and are delighted you are here today, we hope you feel very welcome. We have future plans to include a childrens play area and a repair shop.

Children's Menu
