

Local, ethical & with a heart for our community

We are committed to an ethical ethos. Our coffee is supplied by a company called 'CLO' who care for the entire supply chain. Our chosen coffee uses a blend of beans which is grown and roasted in Rwanda entirely by women. We are trying to reduce our carbon footprint by sourcing items locally and growing some of our own salad and vegetables in the church allotment. Our take away cups are fully biodegradable and most of the electric power used is now supplied by our own solar panels.

All of the tables in the coffee shop have been made from our old church pews, handcrafted and repurposed by a talented member of the church.

We will also be offering a listening ear to anyone who might be struggling for any reason. Please note there is a key available if you would like to spend some time in church. We hope you feel very welcome.
